The screenshot shows the CloudConvert website. At the top, it says "convert anything to anything". Below this, there are two main steps: "1. select files" and "2. convert it". Under "1. select files", there is a "Select files" button. Under "2. convert it", there is a "Start Conversion" button. Below these steps, there are two columns of text. The left column is titled "206 formats supported" and lists various file formats. The right column is titled "file conversion in the cloud" and explains the cloud-based conversion process. At the bottom, there are links for "advanced features" and "powerful API".
